PERSONAL PROFILE

IIT T-Level graduate with a Distinction and 10 weeks of first-line service desk experience at Serco ITS. Experienced in troubleshooting hardware, software and account issues, using Active Directory, and managing support tickets. Strong communication, organisation and problem-solving skills, with a foundation in networking and cyber security. Seeking an entry-level IT support, service desk or technical administration role where I can apply my skills and continue developing professionally.

DEVELOPED SKILLS

- Active Directory and user account management
- First-line IT support and troubleshooting
- IT ticket management and documentation
- Customer service and technical communication
- Hardware and software troubleshooting

WORK EXPERIENCE

Serco ITS - 1st line service desk **Jul - Aug & Jan - Feb(10weeks)**

- Assisted users with software, account and hardware issues.
- Used Active Directory to troubleshoot login errors and manage user accounts.
- Collaborated with team members to resolve complex technical requests and major incidents.
- Managed and updated tickets efficiently with concise descriptions, enhancing overall customer satisfaction and experience.
- Built confidence, enhanced communication skills, and developed effective problem solving abilities.

Bubble N Dough Store Assistant/Supervisor **March 2025 - 2026 September**

- Delivered high-quality customer service, accurately processing orders and payments while ensuring a positive customer experience.
- Prepared beverages efficiently and maintained high standards of cleanliness, hygiene, and presentation throughout the shop.
- Supported opening and closing procedures, ensuring the shop was fully prepared for service and securely closed at the end of each shift.
- Supervised and onboarded new staff, providing training and guidance to ensure they understood procedures, maintained service standards, and integrated effectively into the team.

Warehouse Operative - DPD **October 2026 - 2 Weeks**

- Packed and securely sealed orders, inserted paperwork, and moved pallets to designated dispatch areas.
- Used handheld scanners to pick and organise items into trays for order consolidation.
- Supported warehouse operations through accurate scanning, goods handling, and order preparation.
